

BAA REVIEW SUPPORT WORKFLOW

Illustrative administrative workflow - fictional requirements, records, parties, and review outcomes

PURPOSE

Organize a Business Associate Agreement for structured review, record key issues, route questions to qualified counsel, and preserve an auditable approval trail.

ADMINISTRATIVE REVIEW CHECKLIST

Issue-spotting aid for organized review and escalation - not a legal determination

REVIEW AREAS

☐ PARTIES & SCOPE

Legal names and roles are consistent; covered services and intended relationship are clear.

☐ DEFINITIONS

Key defined terms are present and used consistently throughout the document.

☐ PERMITTED USES

The agreement describes the operational purpose and permitted handling of protected information.

☐ SAFEGUARDS

Administrative, technical, and physical safeguard commitments are included for counsel review.

☐ INCIDENT NOTICE

Reporting method, recipient, timing, required details, and follow-up obligations are recorded.

☐ SUBPROCESSORS

Authorization, flow-down duties, notice, objection, or consent requirements are captured.

☐ INDIVIDUAL REQUESTS

Support for access, amendment, restriction, accounting, or related requests is addressed.

☐ RETURN / DESTRUCTION

End-of-service handling, feasibility exceptions, retention, and continuing protections are noted.

☐ LIABILITY & REMEDIES

Indemnity, damages, caps, exclusions, fines, and other risk terms are escalated to counsel.

☐ AUDIT & ASSURANCE

Audit rights, certifications, reports, cooperation, and evidence requirements are identified.

☐ TERM & TERMINATION

Effective date, duration, termination rights, cure periods, and survival terms are captured.

☐ NOTICES & GOVERNING TERMS

Formal notice details, order of precedence, governing law, and signature blocks are complete.

REVIEW RECORD

Request ID, document version, reviewer, open issues, decisions, approvals, and final location are recorded.

ESCALATION RULE

Contract Operations organizes the review; qualified counsel makes legal judgments and approves legal positions.
